SL6020

## Pediatric bed with electrical adjustable height and Trendelenburg with plexiglass side-rails

GIVAS new pediatric bed has been designed and realized in compliance with DIN 32623 regulation and, above all, studied to create a welcoming product which meets needs of children from newly born up to four years old.

The leading characteristic is the safety given from the total containment realized through continuous transparent side rails and head/foot panels which allow better protection for the child and, at the same time, constant surveillance.

Its mono-shell structure is made of POLEASY, a special linear polyethylene in which superficial micro-porosity is totally absent; a real innovative material with unique performances of duration, sterilization and shine.

GIVAS guarantees maximum safety both for patients and operators; the lack of junctions and the presence of an enveloping lower carter simplify cleaning and sterilization operations considerably, preventing dangerous infections for children at risk.

## Accessory:

**RS0056**-CLAMP FOR I.V. STAND AND OXYGEN TANK HOLDER

**RS0023**-I.V. STAND WITH 2 HOOKS AND ADJUSTABLE HEIGHT

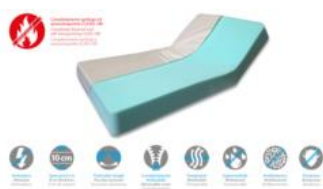

**RS0146**-STEEL BOTTLE HOLDER

**RA0070**-STAINLESS STEEL SUPPORT FOR URINE AND DRAINAGE BAGS

**RS0058**-ACCESSORIES BAR FOR SL6020/SL6030 PEDIATRIC BEDS

**LH1601**-MATTRESS FOR SL6020-SL6030 PEDIATRIC BEDS

**RS0060**-COLOURED LABELS PAIR MADE OF PVC FOR SL 6020-SL6030 HEAD/FOOT PANELS

**RS0062**-COLOURED LABELS PAIR MADE OF HPL FOR SL 6020-SL6030 HEAD/FOOT PANELS

Personalizzato personalizzato - LA GAMMA DEGLI SCOPPI È ADATTA AL CLIENTE  
Personalized personal - THE GAMMA OF PANELS IS CHOSEN BY THE CUSTOMER
