## Armchair 'Free' - fixed height - independent gas-spring sections adjustments - extractable footrest

The new "Free" has been specifically redesigned to satisfy the needs of patients with a moderate mobility to move inside wards. Thanks to its accessories, it is the best solution for inpatients who need drugs/therapies delivery. A further benefit is given by its height adjustable armrests, which facilitate patient's lateral transfer from the bed to the armchair and vice versa, when lowered to their minimum height. On the contrary, when positioned at their maximum height, they not only create a lateral containment, but also becomes an excellent support for patients while lifting them up.

### TECHNICAL DATA

Dimensions of seat position: cm 74x90x142 h  
 Dimensions of lying position: cm 74x192x73 h  
 Seat width: cm 54  
 Seat depth: cm 45  
 Seat height (from the floor): cm 52  
 Armrest height (from the floor): cm min 48 - max 71  
 Backrest inclination: 95° / 162°  
 Legrest inclination: -90° / 10°  
 Wheels diameter: mm 125  
 Maximum load: Kg 150  
 Weight: Kg 40
